

**R E M A R K S**

Claims 1 through 29 are in the application, with Claims 1, 13 and 24 being independent. The outstanding Office Action requires an election of a species (i or ii) from each of species a and b of elected Group II (Claims 13-23) as set forth in the December 15, 2005 Office Action.

In response, Applicants elect species II.a.i. (no-flow underfill) and species II.b.ii. (a length of the second integrated circuit die is greater than a length of the first integrated circuit die, and wherein a width of the second integrated circuit die is greater than a width of the first integrated circuit die) as described in the December 15, 2005 Office Action. Claims 13-15, 17-20, 22 and 23 are hereby identified as readable thereon. Examination and allowance of the elected claims are respectfully requested.

Applicants note that the December 15, 2005 Office Action requested "a species election of a. or b. from the elected Group". Since the previous reply clearly elected species a. from Group II, the previous reply is believed to have been fully responsive to the Office Action.

### CONCLUSION

If there remains any question regarding the present application, or if the Examiner has any suggestions for expediting allowance of the present application, the Examiner is cordially requested to contact the undersigned via telephone at (203) 972-0049.

Respectfully submitted,
